

Fentrim® IS 20

HIGH PERFORMANCE ADHESIVE TAPE

INNOVATIVE, pre-folded tape for SEALING inside corners.

Fentrim IS 20 is the optimal solution for permanent airtight sealing of window frames and other right-angle connections on the building interior. As with all tapes in the Fentrim family, IS 20 is a completely primerless solution for all substrates – including masonry.

CHARACTERISTICS

AVAILABLE WIDTH(S)	2.9" / 3.9" / 5.9"
ROLL LENGTH	82'
WATER VAPOR TRANSMISSION	0.17 US PERMS
MINIMUM SURFACE CONTACT FOR MASONRY SUBSTRATE	2"

- ✓ immediate seal over entire surface area
- ✓ pre-folded at 5/8" with exposed adhesive surface
- ✓ protruding backing strip is tear-proof and easy to remove

INSTALLATION INSTRUCTIONS

- Cut full-length piece for window sill
- Bond first to window, then bridge to rough opening
- Maintain consistent 5/8" contact with window frame

- Repeat Step 1 for both jambs and head
- Overlap at the corners
- Press on firmly

- To detail each corner, cut a short 3" piece
- Make a crosscut at the center of the narrow, 5/8" pre-folded section
- Crease the center of the wide section and bond the 2 crosscut parts together, forming the compound corner

- Insert into corner
- Press on firmly
- Repeat for all four corners

All SIGA products are backed by a 10 year limited warranty. Reference siga.swiss for complete details.
